Social Media Team

Are you ready to start using Social Media to do great things?

It's time

- **To combat right-wing disinformation online**
- **To build a stronger and more connected Democratic community**
- **To uplift the causes, issues, topics, and people you care about**
- **To take control of your Social Media experience**
- **To harness the power of Social Media to improve voter turnout, engagement, and Democratic outcomes**

It's time for you to join the Movement Labs Social Media Team!!

Time and energy are very limited resources for most people. Many of us can't seem to find enough time and energy in a day to volunteer for Democrats, even when we *really* want to help out.

Movement Labs Social Media Team Actions can be completed in five minutes or less, during the time that you're already spending on Social Media!

Virtual Team Huddles are held biweekly online for volunteers to ask questions, get support, and learn more about using social media to support Democrats.

To join the Movement Labs Social Media Team, you will need:

1. A Facebook account
2. An internet connection and internet enabled device
3. To sign up for a **Teammate Orientation**
